## 7. ANNOUNCEMENTS BY PRESIDING MEMBER WITHOUT DISCUSSION

I am pleased to advise that the community of Williams is a State Finalist in the Tidy Towns competition and is short listed in six categories. Thank you to all the people who have helped make that happen and especially those Shire and Community Resource Centre staff for working to make that nomination possible.

Congratulations to all community members who collaborated to make the October Evolve Event successful again this year. Special thank you to Britt Logie, Natalie Major and Bella Logie who organised the refreshments and some catering which raised \$2,118.06 for the Community Chest Fund.

On behalf of Council and the Shire of Williams I record our condolences to former Councillor, Moya Carne and family on the passing of Moya's husband Mick, a long time and valued member of our district.

*Shire of Williams Road Network*

**Comments**

**Quindanning-Darkan Road**

The Shire has received additional grant funding of \$195,899 from the Regional Road Group to install an 80m concrete causeway crossing over a section where the Hillman River crosses the road. Quotes are being sought for the work which is expected to be completed by the end of 2025.

**Williams-Darkan Road**

Funding from the Wheatbelt Secondary Freight Network (WSFN) has supported the survey pick, design and pavement testing for the proposed future road upgrade.

**Marradong Road**

Survey pick, design and pavement testing is occurring to review estimated costs for road improvements scheduled over the next 4 years.

**Brooking Street Culvert**

Following a tender in early 2025, Sims Civil are contracted to replace the Brooking Street culvert. Works will commence on the 6 January 2026. Brooking Street from the roundabout to Richmond Street intersection will be closed for a period of 4 to 5 weeks from that date, to enable a safe working environment and efficient job delivery. Works are funded by the Local Roads and Community Infrastructure (LRCI) Program.

### **York-Williams Road**

The nomination process for Tranche 2 projects under the Regional Road Safety Program (RRSP) – Local Government Roads, has commenced and closes 30 January 2026. An application for funding for the York-Williams Road (scope= SLK 0 – 20.68: Seal shoulder to achieve 7.6m seal on 7.6m formation, with 3.3m of lane width and 0.5m of sealed shoulder & installation of AEL/ACL) is being prepared.

### **Resealing**

Resealing of several town intersections will coincide with the asphalt treatment on the Brooking Street job.

Sections of Clayton, Glenfield and Cemetery Roads will be resealed.

Sections of Congelin-Narrogin and Quindanning-Darkan Roads will be sealed.

### **Strategic Implications**

This item aligns with the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032. Specifically, it relates to the following strategy(s):

- SC 1.1 Provide, maintain and improve community infrastructure.
- LUE 1.1 Ensure that the townsite is maintained to a high standard.
- LUE 2.2 Ensure townsite amenities are maintained and improved where required.

### **Financial Implications**

Funds for the maintenance of the town and facilities are included in the 2025/2026 Annual Budget.

**SHIRE OF WILLIAMS**  
**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY**  
**FOR THE PERIOD ENDED 31 OCTOBER 2025**

**1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES**

**BASIS OF PREPARATION**

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

**Local Government Act 1995 requirements**

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

*Local Government (Financial Management) Regulations 1996*, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

**PREPARATION TIMING AND REVIEW**

Date prepared: All known transactions up to 05 November 2025

**THE LOCAL GOVERNMENT REPORTING ENTITY**

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

**MATERIAL ACCOUNTING POLICES**

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

**Critical accounting estimates and judgements**

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
  - Property, plant and equipment
  - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits

**CURRENT AND NON-CURRENT CLASSIFICATION**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

#### Background

Council Policy C3.7 below defines the considerations for the CEO leave. The CEO will take annual leave from 19 January 2026 to the 17 February 2026 inclusive - 21 working days.

#### C 3.7 Temporary Employment or Appointment of CEO Policy

##### **OBJECTIVE**

To outline the process by which Council appoints an Acting Chief Executive Officer, as required by Section 5.39C(1)(a) and (b) of the Local Government Act 1995.

##### **STATEMENT**

Council is responsible for the appointment of its CEO and the appointment of an Acting CEO.

##### **GUIDELINES**

To ensure clarity around functions and delegated authority, the following process occurs for appointment of an Acting CEO.

##### **Employment of a person in the position of CEO for a term not exceeding one year**

Council must approve, by Council resolution, a person to be appointed in the position of CEO for a term not exceeding one year.

In accordance with section 5.36(2)(b) and 5.41 of the Local Government Act 1995, Council must believe the person is suitably qualified for the position and can carry out the functions of a CEO and is satisfied with the provision of the proposed employment contract\*.

\*Absolute Majority required.

##### **Appointment of an employee to act in the position of CEO for a term not exceeding one year**

For the purposes of Section 5.36 (2) of the Local Government Act 1995, the Council has determined that the Executive Manager of Corporate Services is suitably qualified to be appointed as Acting CEO by the CEO, from time to time, when the CEO is on periods of leave, subject to the following conditions:

1. The term of appointment is no longer than 20 working days consecutive;
2. That the employee's employment conditions are not varied other than the employee is entitled to, at the CEO's discretion, a salary no greater than the salary equivalent to that of the CEO during the Acting period.

In the case of the unavailability of the CEO due to an emergency, the Manager of Corporate Services is automatically appointed as the Acting CEO for up to 2 weeks from commencement, and continuation is then subject to determination by the Council.

*In the case of the unavailability of the Executive Manager of Corporate Services to act as the CEO during a period of leave or in an emergency, as described above, the Council determines that the Senior Administration/Finance/Building Officer or Community Development Officer can act in the position of CEO.*

*Pursuant to Section 5.37(1) of the Local Government Act 1995, the following employees are designated as senior employees –*

- a) Executive Manager of Corporate Services; and*
- b) Work Supervisor.*

### **Local Government Act 1995 5.39 Contracts for CEO and senior employees**

*(1) Subject to subsection (1a), the employment of a person who is a CEO or a senior employee is to be governed by a written contract in accordance with this section.*

*(1a) Despite subsection (1) —*

*(a) an employee may act in the position of a CEO or a senior employee for a term not exceeding one year without a written contract for the position in which the employee is acting; and*

*(b) a person may be employed by a local government as a senior employee for a term not exceeding 3 months, during any 2-year period, without a written contract.*

*(2) A contract under this section —*

*(a) in the case of an acting or temporary position, cannot be for a term exceeding one year;*

*(b) in every other case, cannot be for a term exceeding 5 years.*

*(3) A contract under this section is of no effect unless —*

*(a) the expiry date is specified in the contract; and*

*(b) there are specified in the contract performance criteria for the purpose of reviewing the person's performance; and*

*(c) any other matter that has been prescribed as a matter to be included in the contract has been included.*

*(4) A contract under this section is to be renewable and subject to subsection (5), may be varied.*

*(5) A provision in, or condition of, an agreement or arrangement has no effect if it purports to affect the application of any provision of this section.*

*(6) Nothing in subsection (2) or (3)(a) prevents a contract for a period that is within the limits set out in subsection 2(a) or (b) from being terminated within that period on the happening of an event specified in the contract.*

*(7) A CEO is to be paid or provided with such remuneration as is determined by the Salaries and Allowances Tribunal under the Salaries and Allowances Act 1975 section 7A.*

*(8) A local government is to ensure that subsection (7) is complied with in entering into, or renewing, a contract of employment with a CEO.*

### **Comment**

The CEO is taking leave in excess of the 20-working day period prescribed in the Council policy C3.7.

Council should therefore determine what it would like to do to replace the CEO for this annual leave period. Options are provided below.

Key issues in the CEO period of leave will include preparation of the Forum, Council meeting, and Annual Electors Agenda papers for the February 2026 meetings.

	Options	Comments
1	Appoint the Executive Manager of Corporate Services (EMCS) as acting CEO for this period.	Most cost-effective option. Working knowledge of key 'live' issues for the Shire. Better hand over period. Builds experience in the team. Gives the EMCS acting CEO experience after 18 months working with the Shire.
2	Acting CEO appointed from recruitment agency.	Higher cost accommodation & salary- potentially \$20,000. Will not know the staff or live issues. Will require increased support from existing staff. Potential limited pool of candidates over the January period.
3	Appoint another suitable person from whatever source.	As above for (2).

**Strategic Implications**

This item aligns with the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032. Specifically, it relates to the following strategy(s):

ILG 4.2 Provide professional development opportunities for all staff.

**Financial Implication**

<b>Author</b>	Peter Stubbs, Chief Executive Officer
<b>Date</b>	30 October 2025
<b>Disclosure of Interest</b>	The Author has no Impartiality, Financial or Proximity Interests that require disclosure
<b>Attachments</b>	Nil

**Background**

Council last adopted its Code of Conduct for Council Members, Committee Members and Candidates in May 2024.

Council's Code of Conduct incorporates the principles and requirements recommended by Western Australian Local Government Association Model Code.

Local governments may not amend Division 2 (Principles) or Division 4 (Rules of Conduct), but additional behaviour requirements can be included in Division 3 (Behaviours) if deemed appropriate by Council.

Any additions must be consistent with the Model Code of Conduct (section 5.104(3) of the Act). In preparing the Code for adoption, local governments are encouraged to review their existing Code and consider incorporating any additional behaviour requirements that are not represented in the Model Code. This may include specific dress standards or the appropriate use of technology. To adopt the Code, a resolution passed by an absolute majority of the council is required. Once the Code is adopted, it must be published on the local government's official website (section 5.104(7)).

**Legislative Requirements**

*Section 5.103. of the Local Government Act 1995 - Model code of conduct for council members, committee members and candidates*

*5.103. Model code of conduct for council members, committee members and candidates*

- (1) Regulations must prescribe a model code of conduct for council members, committee members and candidates.*
- (2) The model code of conduct must include —*
  - (a) general principles to guide behaviour; and*
  - (b) requirements relating to behaviour; and*
  - (c) provisions specified to be rules of conduct.*
- (3) The model code of conduct may include provisions about how the following are to be dealt with —*
  - (a) alleged breaches of the requirements referred to in subsection (2)(b);*
  - (b) alleged breaches of the rules of conduct by committee members.*

- (4) *The model code of conduct cannot include a rule of conduct if contravention of the rule would, in addition to being a minor breach under section 5.105(1)(a), also be a serious breach under section 5.105(3).*

**Comment**

No changes to the existing Code of Conduct are recommended.

**Background**

A Code of Conduct for Employees is required by section 51.A of the Local Government Act 1995.

5.51A. Code of conduct for employees

- (1) *The CEO must prepare and implement a code of conduct to be observed by employees of the local government.*
- (2) *The CEO may amend the code of conduct.*
- (3) *The CEO must publish an up-to-date version of the code of conduct on the local government's official website.*
- (4) *Regulations may prescribe the content of, and other matters in relation to, codes of conduct under this section.*
- (5) *A code of conduct under this section is of no effect to the extent that it is inconsistent with regulations made for the purposes of subsection (4).*

The Local Government Regulations Amendment (Employee Code of Conduct) Regulations 2021 define the requirements which must be address in the Employee Code of Conduct.

The Code of Conduct for Employees was adopted in August 2021. The policy was revised by the CEO in February 2024, with no changes required.

**Comment**

The CEO reviewed the Code of Conduct for Employees on the 28 October 2025, updating the Introduction and Statutory environment sections. All other sections of the Code remain valid and consistent with the requirements.

The revised Code of Conduct for Employees was posted the Shire website 29 October 2025, and copies made available to all Shire staff.

All staff are reminded of the Code provisions at their annual performance reviews.

**8.2.6 REGIONAL HOUSING SUPPORT GRANT**

<b>File Reference</b>	9.20.95

<b>Author</b>	Peter Stubbs, Chief Executive Officer
<b>Date</b>	3 November 2025
<b>Disclosure of Interest</b>	Cr Harding declares a proximity interest, with respect to Lots 9A, 13 & 15 New St, as he owns property nearby.
<b>Attachments</b>	1. State Government media release-\$25 million to unlock new housing and land in regional WA 2. Regional-housing-support-fund-guidelines-for-applicants_0

**Background**

This report is presented to seek Council endorsement for the Shire of Williams to participate in a proposed 4WDL Voluntary Regional Organisation of Councils (VROC) joint application to the Regional Housing Support fund to increase housing supply in Williams. The 4WDL VROC consists of the Shires of Wagin, West Arthur, Williams, Woodanilling, Dumbleyung and Lake Grace.

An email was sent to Councillors on the 28 October 2025 advising of the Regional Housing Support fund (\$25m) announced by the State Government and closing 19 December 2025.

The grant intent is to help address challenges in housing and residential Lot development in the regions. The fund will support key worker housing, community housing, and residential subdivisions by providing grants of up to \$5 million to local governments, community housing providers, and developers or landowners.

Funding can be sought for a range of costs associated with housing and residential Lot development, including construction, site preparation, roadworks, and essential infrastructure such as water, wastewater, electricity and telecommunications.

- Projects must comprise a minimum of three residential dwellings or lots.
- Applications close 19 December 2025.

The 4WDL VROC CEOs met on Monday 3 November 2025 to canvass the option of joint VROC application as the VROC has been lobbying for the past year for this sort of funding support.

The VROC intends to lodge a joint application and a consultant quote to prepare that has been obtained (\$9,999 plus GST).

**Comments**

The grant opportunity is likely to be fiercely contested and oversubscribed given the housing demands.

The grant closing date of 19 December 2025 means that most costs associated with any approved project/s will occur mostly in 2026/27 and 2027/28 and this gives the Council the opportunity to frame a budget for any engagement with the grant if it chooses to.

The level of funding support available is not specified, but it is considered that projects which demonstrate higher applicant contributions are likely to be favoured.

The Shire could make its own application independent of the VROC. This option is not recommended as the VROC has shown over time to demonstrate scale and collaboration across multiple local governments with a common interest. The VROC has also been active in procuring key worker housing analysis that shows the market gaps, and in lobbying for this type of grant support.

The Shire of Williams is already engaged in the subdivision process to create 18 new residential Lots and there are several smaller private subdivisions emerging. Lot yield and availability is therefore showing signs of improvement.

Increasing housing stock remains a challenge.

The proposal is that the Shire of Williams seek the grant support to gain three (3) modular houses and locate them on vacant Lots the Council owns with the ability to connect to services.

Those Lots are:

- 13 & 15 New St            356m<sup>2</sup> each    zoned residential R30
- 9A New St                501m<sup>2</sup> zoned residential R20

Council has no clear plan at this time to build on these vacant Lots, and the Lots are therefore “lazy assets” in terms of the housing demands.

4WDL VROC research has shown that the opportunity cost of not investing in key worker housing is significant over time, ranging from a loss of economic contribution of \$126,000 to \$265,000 per worker per year.

Towns in the 4WDL Shires often experience 'failed market' conditions, where a 'negative equity' situation stifles private sector investment (i.e. the cost of a new dwelling is higher than the resulting market value of the final built product).

This grant has the potential in assisting to close that gap.

### **Strategic Implications**

This item aligns with the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032. Specifically, it relates to the following strategy(s):

- E 1.4 Promote land availability within the Shire for residential, industrial and commercial development.
- E2. To have appropriate levels of housing to cater for population retention and growth.

### **Financial Implications**

The cost of the grant preparation would be proportioned across the 4WDL participating Shires. The Shire of Williams contribution to the grant preparation is estimated at \$1,666.50.

The 2025-26 Shire budget include an allocation of \$6,073 for Townsite Development (E147118), and it is proposed to cost this grant application contribution to this allocation.

Council has several ways to finance three new dwellings, which could involve a mix of grant funding, sale of asset/s to free up funds, loan funds, cash and or Reserve budget allocation.

Rental income from the dwellings should also be considered.

### **Voting**

Absolute Majority

### **OFFICER'S RECOMMENDATION**

That Council

1. Approve an unbudgeted expense of \$1,666.50 as a proportional contribution for a 4WDL VROC joint grant application to the State Government Regional Housing Support fund for the purpose of seeking grant funding to support the construction of three new modular Shire homes for key workers in Williams.
2. Request the CEO to provide a more detailed proposal to resource construction of proposed three new dwellings for consideration in the March 2026 budget review.

**Background**

The State Government has released round 8 of the Regional Development Grants (RED). Grant application close on the 9 January 2026.

The RED Grants program is an initiative investing \$60.85 million over eleven years in locally driven projects to stimulate economic growth and development across regional Western Australia.

Funding of up to \$150,000 is available for individual projects in the Wheatbelt region that contribute to:

- Increasing or sustaining jobs,
- Expanding or diversifying industry,
- Developing skills or capability,
- Increasing business productivity,
- Attracting new investment to the regions.

In recent rounds of funding, grants were approved for the re-development of the Darkan Hotel and laser cutting equipment at Prices Fabrication as examples.

Elected members considered the RED opportunity at their Forum meeting in October 2025.

This report recommends that Council authorise Shire staff to engage a consultant to assist in preparing a RED grant application to support the proposed rezoning and subdivision of Shire owned (6.99ha) land adjacent to Albany Highway known as Area D (Figure 1) which currently is zoned rural.

Council identified this land as a future commercial zoning in the Local Planning Strategy which has now been approved by the Western Australian Planning Commission.

The Planners working for Development WA on the Hynes Court residential subdivision and the industrial subdivision have been approached by the Shire to provide a brief on the process, timing and likely cost of rezoning and subdivision, and to provide a concept sketch of what a subdivision could look like.

This land is currently used for horse grazing under Licence agreement with Ms Nathasha Fisher.

Figure 1 – Area D Albany highway

**Comment**

1. A rezoning process would likely take a year from commencement.
2. An indication of what might be possible can be gained by looking at the land titles and businesses between Richardson Street and Brooking Street on Albany Highway opposite this land.
3. There is no budget allocation at this time, to support a rezoning, subdivision(s) or the due diligence that would be needed to be accompanying those things (i.e. road traffic safety audit, heritage clearance, feature survey and geotechnical investigations).
4. It is prudent to consider what action can be taken to continue measured and reasonable momentum in economic development in Williams beyond the residential and industrial subdivision emerging. The 6.99ha is one clear option, and if developed is likely to be in demand.

5. RED grant funding sought to support the rezoning, subdivision, servicing of Lots created and creation of Titles. If that can be achieved it presents an opportunity to Council to encourage private sector investment on commercial land in Williams which would have intergenerational benefit.

### **Strategic Implications**

This item aligns with the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032. Specifically, it relates to the following strategy(s):

- E 1.1 Develop and promote the Industrial Estate to offer affordable and appropriately serviced lots.
- E 1.4 Promote land availability within the Shire for residential, industrial and commercial development.

### **Financial Implications**

A quote sourced for the preparation of a RED grant for the recommended purpose is \$5,500 (inclusive of GST). The 2025-26 Budget has an allocation of \$15,000 for Town Planning and schemes expenses (E147105) which has sufficient funds to support the grant development.

<b>Disclosure of Interest</b>	Cr Panizza Proximity Interest - owns rural land nearby to the north

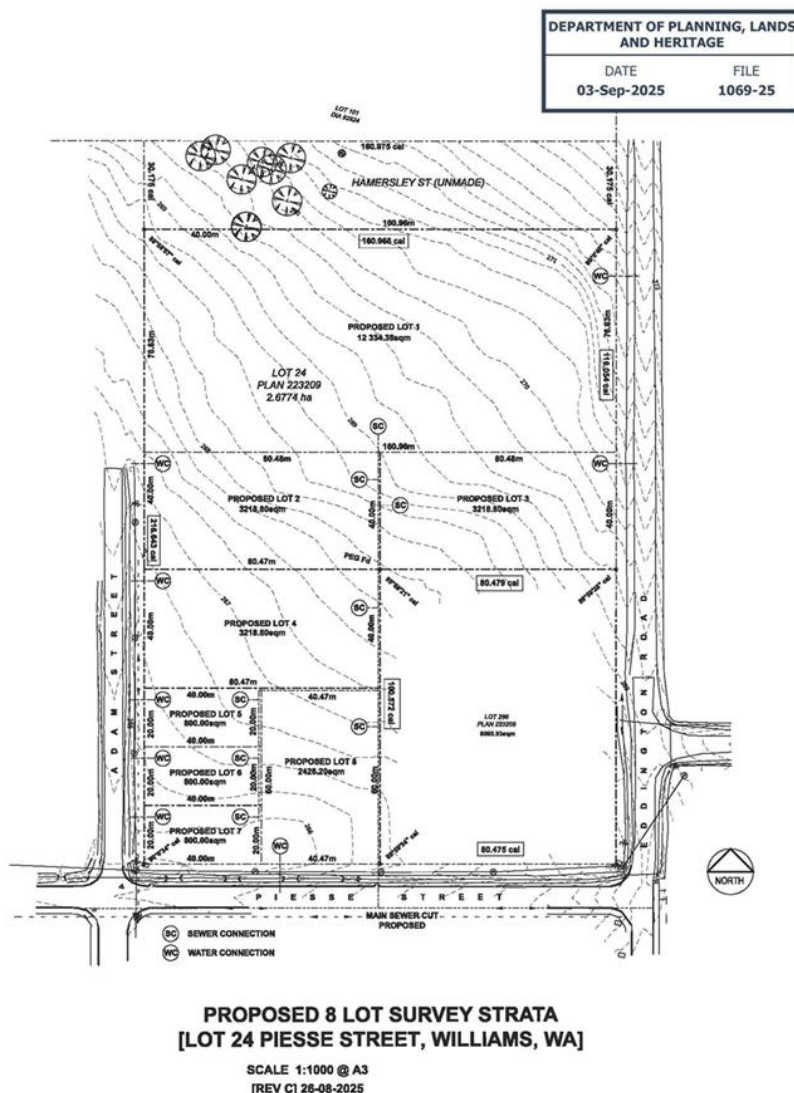

**Background**

The Shire received Western Australian Planning Commission (WAPC) advice of a subdivision application for Lot 24 Piesse St, Williams on Thursday 23 October 2025.

The subdivision Plan was provided to Elected Members on Friday 24 October 2025 as part of the weekly CEO update #21 for 2025.

Lot 24 Piesse St, Williams is Zoned R12.5 which requires a minimum Lot size of 700m<sup>2</sup> and an average Lot size of 800m<sup>2</sup>. The draft Plan addresses that requirement.

Lot 24 Piesse St is within a few hundred meters of the Williams Primary School. It is close to important amenities.

**Comment**

1. The subdivision should be encouraged to increase the supply of residential land to the market. The site is a good option for residential subdivision with close proximity to town amenities, good drainage and residential zoning.
2. The subdivision Plan appears to be partly designed to minimise service connections and costs, by limiting water, sewer and power connections.
3. The Plan shows large, proposed Lot sizes for land as close as this is to key community amenities and Lot sizes more in keeping with a Rural Residential Zoning.
4. Land to the north of Hammersley Street (unmade) is currently rural farmland but is potentially some of the most suitable land for future town/residential expansion.
5. Landowners in future years may seek to subdivide larger Lots as proposed and therefore consideration should be given to sizing services for this potential.

6. The inclusion of more Lots at around the 700m<sup>2</sup> to 800m<sup>2</sup> size (still a decent size for R12.5) whilst being mindful of keeping infrastructure and service costs for the development reasonable, should be encouraged. The town planning acting for the landholder advises that consideration is being given to revised subdivision plan to accommodate more Lots in keeping with R12.5 Zoning and design which facilitates future subdivision of Lots, should that be sought.
7. The experience in Williams (and other towns) suggests that some people do not maintain large properties at 800m<sup>2</sup> and above, because of the cost, time and effort to do so. Larger Lots often have the rear half unused, creating fire risk, fuel load and areas where people store unused equipment. There is a risk that this would occur as it has done in other parts of Williams.
8. Adam Street is not built (sealed) to proposed Lot 1 and access from Eddington Street to this proposed Lot is by gravel road. Consideration should be given to whether the developer should contribute to the built extension of Adam Street or seal an extension on Eddington Road.
9. The proposed sewer connection is preferable to onsite wastewater management.

### **Strategic Implications**

This item aligns with the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032. Specifically, it relates to the following strategy(s):

- E1 Develop infrastructure and investment that is sustainable and an ongoing legacy to the Shire.
- E2 To have appropriate levels of housing to cater for population retention and growth.

### **Financial Implications**

No costs in the Shire 2025-26 Budget. Longer term cost might relate to any road or crossover requirements, and what conditions are applied the subdivision as developer requirements.

Increased Lots might also mean improved rate revenue from the land.

**OFFICER'S RECOMMENDATION AND COUNCIL RESOLUTION**

**Moved: Cr Price**

**Seconded: Cr Macnamara**

That Council provide the following feedback to the Western Australian Planning Commission on the proposed subdivision Plan for Lot 24 Piesse Street, Williams.

1. That Council confirm that residential subdivision of the land consistent with the zoning and R Code- R12.5 is desirable to meet current and future housing needs.
2. The inclusion of more Lots at around the 700m<sup>2</sup> to 800m<sup>2</sup> size in the Plan be encouraged while still being mindful of keeping infrastructure and service costs for the development reasonable.

**Background**

The Shire has received requests to close unmade road reserves in the rural residential area east of the Williams town.

The Minister for Lands is the decision-making authority for permanent road closures, including unmade road reserves. The legislative process to support an application to the Minister for Lands is defined in the *Land Administration Act 1997, section 58*. The Department of Planning Lands and Heritage (DPLH) advise the Minister on road closure requests and or act with delegated authority.

Local Government cannot unilaterally permanently close roads or road reserves.

The Shire and Council has received requests across the 2024 and 2025 years for the closure of portions of unmade road reserves in the rural residential area east of the main Williams town.

In May 2024 Council sought to close a portion of the unmade Channon Street (Council Resolution 114/24 provided below).

*COUNCIL RESOLUTION- May 2024*

*Moved: Cr Price*

*Seconded: Cr Major*

*That Council having considered future requirements of Channon St request the Department of Planning Lands and Heritage to cancel the road reservation for Channon Street in Williams, between Olive Street and Clayton Road.*

*Channon Street to remain as a road reserve west of Olive Street.*

*Carried 6/1*

*For: Cr Cowcher, Cr Harding, Cr Logie, Cr Major, Cr Panizza, Cr Price*

*Against: Cr Macnamara*

*Resolution 114/24*

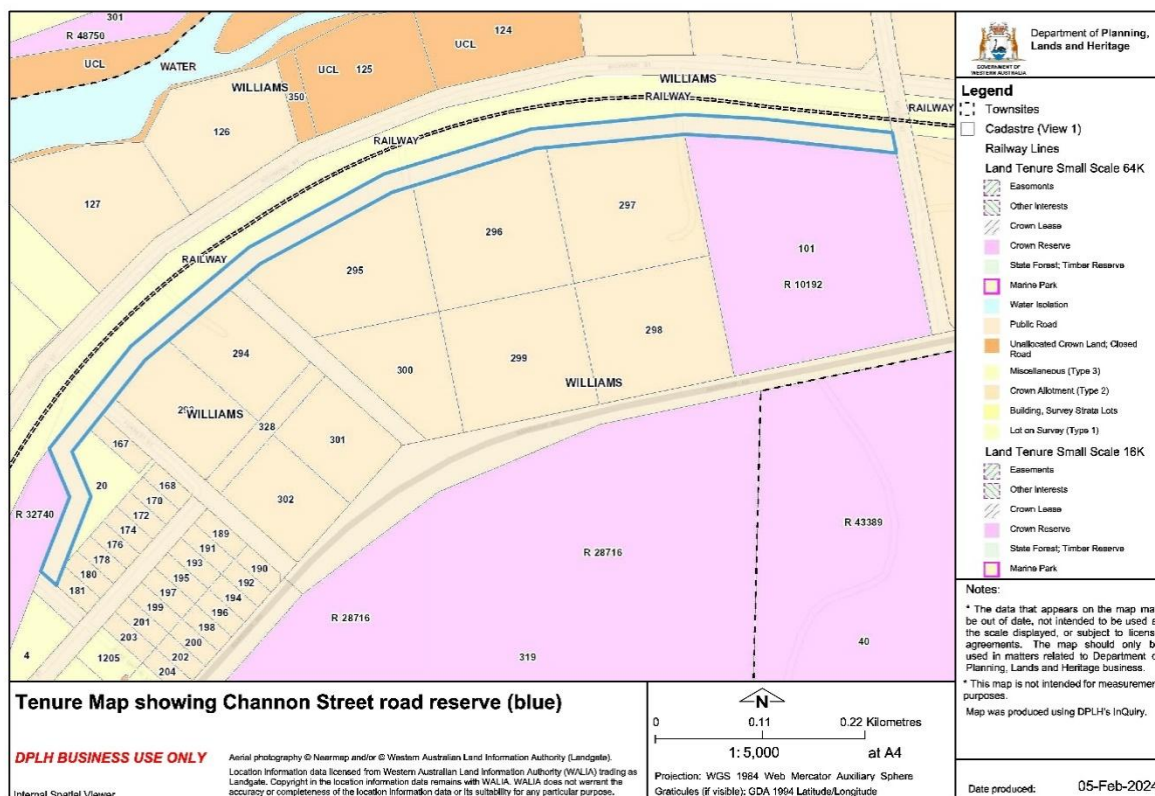

This could not be progressed because the DPLH did not support the request due to objection by the Public Transport Authority (PTA) which owns the adjacent disused rail reserve. The PTA objected because landholders adjacent to this portion of Channon Street would have no

legal access to their properties if Channon Street was closed, and they have no legal access across the PTA rail reserve, even though they have historically used driveway across this rail reserve for several decades.

The request for the closure of the portion of Channon Street has brought the legal access matter into focus for the PTA.

The unmade Channon Street is shown highlighted in blue outline below in Figure 1.

Figure 1 - Land Tenure map

The owners of the following Lots are impacted by not having legal access across the PTA rail corridor reserve & unmade Channon Street into their properties:

- Lots 296 & 297 Michael and Daphne Italiano
- Lots 295 Peter Logie
- Lots 293 & 294 Peter Fitzpatrick

The property titles for these Lots list Channon Street as the legal address. In practical terms the owners access these Lots from Richmond Street.

Other landholders who have requested portions of unmade road closures include (Figure 2):

- Lot 53 Lavender Street- Brad Evans, borders Channon Street, with legal access from Lavender Street.
- 18 Channon Street- Harry Worth, with legal access from Forrest Street.
- 60 Lavender Street- Stuart and Annette Nicol, requesting a portion of unmade Forrest Street by closed.

Figure 2 - map extract showing Lot 53 & 60 Lavender Street and 18 Channon Street.

In July 2024 Council resolved as follows (Resolution 5/25).

*COUNCIL DECISION*

*Moved: Cr Harding*

*Seconded: Cr Macnamara*

*That subject to the applicant, Mr Peter Ryan, paying the required advertising fee, and evidence of adjoining landholders support, the Council authorise the CEO to initiate the required public advertising for the proposed permanent closure of the Forrest Street Road Reserve in Williams*

*For: Cr Cowcher, Cr Harding, Cr Logie, Cr Macnamara, Cr Major, Cr Panizza, Cr Price.*

*Against: Nil*

*Carried: 7/0*

*Resolution: 5/25*

The portion of Forrest Road referred to in resolution 5/25 is shown in Figure 3 below.

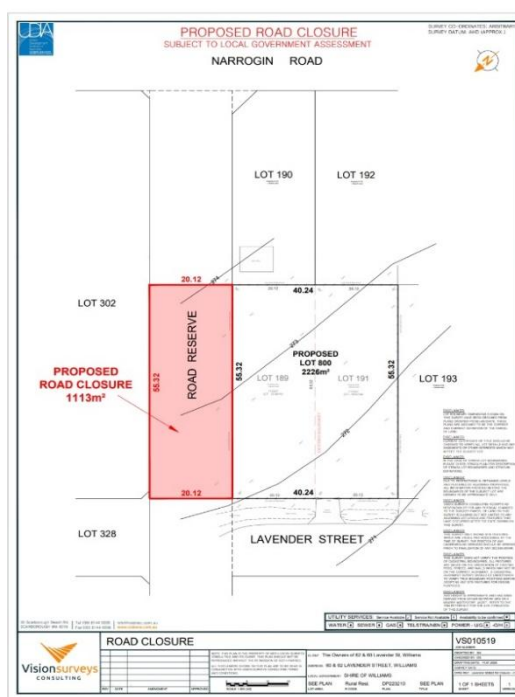

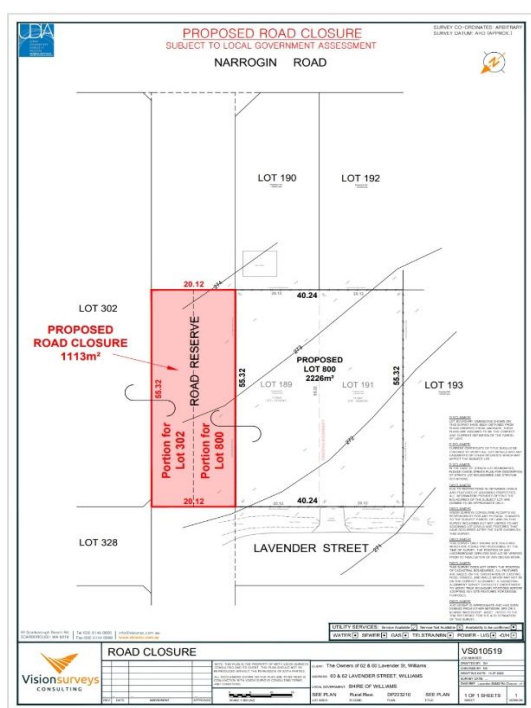

Figure 3 – Lot 60 & 62 Lavender St

The matter was not progressed because Peter Ryan did not follow through with neighbour support. He instead moved to sell his two Lots 60 & 62 Lavender St, (shown in yellow shading in the map above) and which are amalgamated into a single Lot, Lot 60 Lavender Street, now owned by Stuart and Annette Nicol.

In the August 2025 Forum meeting elected members considered a request by Stuart and Annette Nicol for Council support for them to seek ownership of a portion of the unmade Forrest Street Road reserve with two options presented in the Figure 4 below. Their request seeks to leave the southern portion joining Narrogin-Williams Road as an unmade road reserve to satisfy the concerns of the neighbouring property owner to the east, who in the past has indicated that he wants potential access to remain from Narrogin Road for potential future opportunities.

## **Legislative Considerations**

### *Land Administration Act 1997, Section 58 Closure of road at request of local government*

- 1) If a local government considers that a road in its district should be closed permanently, the local government may, in accordance with the regulations, request the Minister to close the road.*
- 2) After receiving a request under subsection (1), the Minister may*
  - a. by order grant the request; or*
  - b. direct the local government to reconsider the request, having regard to any matters the Minister specifies in the direction; or*
  - c. refuse the request.*
- 3) If the Minister makes an order under subsection (2)(a) in relation to a road —*
  - a. the road is closed on and from the day on which the order is registered; and*
  - b. any rights suspended under section 55(3)(a) cease to be so suspended.*
- 4) The closure of a road under this section does not affect —*
  - a. any encumbrances to which the land that comprised the road was subject when the road was closed; or*
  - b. if the land that comprised the road is in the DBNGP corridor — State corridor rights or other rights conferred under the Dampier to Bunbury Pipeline Act 1997 in respect of that land.*
- 5) The regulations may —*
  - a. prescribe procedures to be followed by a local government before making a request under subsection (1), including procedures for the publication of a proposed request and consultation; and*
  - b. require a request under subsection (1) to include prescribed information; and*
  - c. require a request under subsection (1) to be accompanied by prescribed information or a prescribed document.*
- 1) Before passing a resolution to make a request to the Minister under section 58(1) of the Act for the Minister to close a road permanently, a local government must publish an advertisement containing —*
  - a. notice of motion for the resolution; and*
  - b. an invitation to the public to make submissions to the local government on the proposed closure within the period (the submission period ) of 35 days after the day on which the advertisement is published.*
- 2) The advertisement must be published in either or both of the following ways —*
  - a. in a newspaper circulating in the district of the local government;*
  - b. on the website of the local government.*
- 3) The local government must not pass the resolution to make the request to the Minister unless —*
  - a. the submission period has ended; and*
  - b. the local government has considered any submissions made to it within the submission period.*
- 4) If the advertisement is published in both of the ways referred to in sub regulation (2) and the submission periods specified in those publications end on different days, for the purposes of sub regulation (3) the submission period is taken to end on the latest of those days.*
- 5) The local government must include the following with the request to the Minister*
  - a. written confirmation that the local government has resolved to make the request, the date when the relevant resolution was passed and any other information relating to the resolution that the Minister may require;*
  - b. sketch plans showing the location of the road and the proposed future disposition of the land comprising the road after it has been closed;*
  - c. written confirmation that the local government has complied with sub regulations (1) to (3);*
  - d. a copy of the advertisement referred to in sub regulation (1);*
  - e. copies of any submissions made to the local government within the submission period and the local government's comments on those submissions;*
  - f. any other information the local government considers relevant to the Minister's consideration of the request.*
- 6) This regulation does not apply to a request under section 58(1) of the Act to which regulation 9A applies.*

**Comment**

1. Unmade road reserves do present a weed and fire risk if not maintained to some extent (e.g. grazing).
2. DPLH require evidence of public advertising and a direct approach to all adjoining property owners before it would support use of unmade road reserve or amalgamation to adjoining properties. DPLH is unlikely to support a request without going through that process, but it would also not proceed unless it was supported by the Local Government/Council view on it.
3. Landholders referenced above express concern about the;
  - a. lack of management to control weeds and fire risk, and
  - b. the ability of emergency services and other providers locating their properties. However, Google maps do identify and guide people to the properties and houses with a Channon Street address.
4. The matter of legal access across the PTA land has the potential to complicate any future sale of affected properties.
5. Should the closure of unmade road reserves or a portion of these progress and be supported by the Minister for Lands, then the property owners would still need to go through the processes to change the legal addresses for these properties and it may take some time (years) for data bases and mapping applications to reflect those changes.
6. The Shire has attempted to have the PTA issue a Licence to the affected landowners without legal access across the PTA rail reserve, as this has been a solution the PTA use with the Shire. For example, the PTA uses a *Lease L5497-3 – Licence to Occupy* – with the Shire to provide access across PTA land to the Macco Feed business for a licence fee of \$1.00 per year. The Licence area is shown in Figure 5 below and is approximately 30m in width across the PTA rail corridor. The proposal has been that if this can be done with the Shire then it could be done to give legal access for these landholders.

Figure 5 - Lease L5497-3 – Licence to Occupy

7. Michael Italiano advised the Shire that the PTA have presented a proposed Licence to enable legal access, but that it was not accepted because the yearly fee was considered too high. The Shire is not privy to that document but has again written to the PTA requesting it apply a \$1.00 per year fee.
8. The PTA has confirmed that they are working with M & M Contractors (Michael Italiano) to formalise a Licence for access. The PTA advise is that it is still waiting for responses from Peter Logie and Peter Fitzpatrick with regard to the access matter.
9. To proceed with seeking to close Channon Street or a portion of it without landholders having other legal access to Lots, risks the matter not being supported by the Minister for Lands or DPLH.
10. Options for Council;
  - a. Support the status quo with unmade road reserves.
  - b. Seek the closures of portions of unmade reserves requested, subject to affected landholders securing legal access across the PTA reserve, so that Lots do not become land locked.
  - c. Consider building Channon Street (gravel) to negate the need to interface with the PTA. This option would mean either;
    - i. landholders legitimise their access across the PTA land, or
    - ii. cease the current access across the PTA and instead use Channon Street as access.
  - d. Seek a Licence over the entire PTA disused rail reserve with the Shire of Williams for the purpose of public access along and across its length at a peppercorn value. This option has emerged after discussion with the PTA to advance the future option of the proposed walk trial on that land and at the same time deal with land holder access issues, in a low-cost efficient way. It would resolve the landholder access issue.
11. By virtue of Council resolutions 114/24 and 5/25, Council in the past has shown some willingness to see portions of unmade road reserves in this report closed.
12. Portions of the unmade Channon Street and Forrest Roads reserves are being and have been used for private purposes by various adjoining landholders for several decades.
13. If DPLH supports road closures it may offer to sell the unmade road reserve to adjoining landholders and amalgamate the land into existing Titles.
14. There is therefore arguably a private benefit to the landholders in what they request and for this reason it is recommended that if Council supports the road closure advertising that costs for such are paid by the landholders who would potentially benefit.

### **Strategic Implications**

This item is not considered to be strategic in the community's vision and aspirations as contained in the Shire of Williams Strategic Community Plan 2022 to 2032.

It is possible that future interest in subdividing land in the rural residential area to the east of Williams will emerge, and retaining unmade road reserves may have value in supporting that.

### **Financial Implications**

To advance a request to close unmade roads or a portion of them requires some cost associated with public advertising.

### **Voting Requirements**

That Channon Street to remain as a road reserve west of Olive Street to Forrest Street past and adjacent to Lots 294 & 293 (Numbers 28 & 20 Channon Street).

#### **OFFICER'S RECOMMENDATION 4**

That Council request the Public Transport Authority (PTA) to issue a License or Lease covering the entire PTA rail reserve in the Shire of Williams between the Williams Town and the Shire of Williams and Shire of Narrogin border, for the purpose of public access along and across the PTA reserve on a peppercorn value basis.

Should the PTA not agree to recommendation above, then Council authorise the recommendation below.

That consistent with the Council resolution 114/24 and subject to the land owners of Lots 296, 297 (Number 76 & 60 Channon Street), and Lots 295 (Number 20 Olive Street) Channon Street, Williams evidencing legal access to their properties from Richmond Street across the Public Transport inactive rail land corridor, request the Department of Planning Lands and Heritage to cancel the road reservation for Channon Street in Williams, between Olive Street and Clayton Road.

#### **COUNCIL RESOLUTION 4**

**Moved: Cr Harding**

**Seconded: Cr Price**

That Council request the Public Transport Authority (PTA) to issue a License or Lease covering the entire PTA rail reserve in the Shire of Williams between the Williams Town and the Shire of Williams and Shire of Narrogin border, for the purpose of public access along and across the PTA reserve on a peppercorn value basis.

The Local Government section 3.58. Disposing of property

- (1) In this section dispose includes to sell, lease, or otherwise dispose of, whether absolutely or not; property includes the whole or any part of the interest of a local government in property, but does not include money.
- (2) Except as stated in this section, a local government can only dispose of property to —
  - (a) the highest bidder at public auction; or
  - (b) the person who at public tender called by the local government makes what is, in the opinion of the local government, the most acceptable tender, whether or not it is the highest tender.
- (3) A local government can dispose of property other than under subsection (2) if, before agreeing to dispose of the property —
  - (a) it gives local public notice of the proposed disposition —
    - (i) describing the property concerned; and
    - (ii) giving details of the proposed disposition; and
    - (iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given;
  - (b) it considers any submissions made to it before the date specified in the notice and, if its decision is made by the council or a committee, the decision and the reasons for it are recorded in the minutes of the meeting at which the decision was made.
- (4) The details of a proposed disposition that are required by subsection (3)(a)(ii) include —
  - (a) the names of all other parties concerned; and
  - (b) the consideration to be received by the local government for the disposition; and
  - (c) the market value of the disposition —
    - (i) as ascertained by a valuation carried out not more than 6 months before the proposed disposition; or
    - (ii) as declared by a resolution of the local government on the basis of a valuation carried out more than 6 months before the proposed disposition that the local government believes to be a true indication of the value at the time of the proposed disposition.
- (5) This section does not apply to —
  - (a) a disposition of an interest in land under the Land Administration Act 1997 section 189 or 190; or
  - (b) a disposition of property in the course of carrying on a trading undertaking as defined in section 3.59; or
  - (c) anything that the local government provides to a particular person, for a fee or otherwise, in the performance of a function that it has under any written law; or
  - (d) any other disposition that is excluded by regulations from the application of this section.

**Background**

The State of Western Australia operates three Development Assessment Panels (DAPs). Two in the metropolitan area and one in the regional areas.

DAPs are decision-making bodies that are independent to the Department of Planning, Lands and Heritage and the Western Australian Planning Commission.

DAPs are established under the Planning and Development (Development Assessment Panels) Regulations 2011 and are administered by the DAP secretariat within the Department of Planning, Lands and Heritage.

The Regional DAP area includes 104 local government areas and is as diverse as it is large with locations varying from significant regional cities with urban environments, to small, remote communities and largely unpopulated expanses. As a result, developments that may be considered by the Regional DAP could vary from central city or town urban developments to large infrastructure projects related to the resource sector or growing renewable energy sector.

Each DAP meeting is constituted by up to five DAP Members comprising three Specialist Members and two Local Government Members.

Local Government Members are appointed from the Local Government Member register to the relevant DAP for their local government area. Each local government can nominate two members and two alternative members.

All existing Local Government DAP Members are currently appointed for a term ending 26 January 2026. Local governments are required to nominate four (4) DAP members for inclusion on the register by the Minister for Planning and Lands.

The current DAP members for the Shire of Williams are, Cr Tracey Price, Cr Simon Harding and alternate member, Cr Christine Cowcher.

Pursuant to Regulation 25 of the DAP Regulations, local governments are requested, by Friday 21 November 2025, to nominate four elected Council members to sit as DAP members for the Shire of Williams District. The nominations must include two members who will be the primary Local Government DAP Members and two alternate members whom the DAP Executive Director can invite if either of the primary members are unavailable.

Before members can sit on a DAP meeting, training run by the DAP Secretariat must be completed. If previous training has been done the DAP Executive Director will consider time since this was completed or since the members last participated on a DAP meeting to determine whether refresher training is needed before participating on another DAP meeting.

**Legislative**

- *Planning and Development (Development Assessment Panels) Regulations 2011.*
- The *Local Government (Development Assessment Panel) Regulations 2025* implement the latest step in the reform agenda. These Regulations apply to DAP applications made from 1 May 2025 and clarify the roles of Council and local government staff in preparing and submitting a Responsible Authority Report to a DAP. This must be prepared by the Local Government CEO or persons/s appointed by the CEO for that purpose.

**Comment**

It may be increasingly of value to have members nominated and to be able to participate in DAP meetings with potential larger developments on the horizon (e.g. renewable energy projects and commercial or industrial developments).
