To All Williams Councillors

Re- Channon St road closure.

We have attached a letter from the Minister for Planning and Lands that we received a few days ago, and as you can read, it has said Landgate had received correspondence from the Shire of Williams in Sept 2017 addressing the issues with Channon St, and the Shire did not respond or follow up on this, was there any valid reason why the Shire did not respond?

All of this could have been sorted years ago.

We also oppose only a section of Channon St being closed.

All we would like is one address that is easily found without confusion and Richmond St. is the easiest.

ADDRESSING AT CHANNON STREET WILLIAMS

Dear Mr Rundle

Thank you for your email dated 27 November 2025 regarding street addressing at Channon Street in Williams on behalf of your constituent.

Landgate is the State agency responsible for road naming and street addressing. Changes to road names and street addresses are made by Landgate based on applications and advice received from the relevant Local Government.

Landgate has previously engaged with the Shire of Williams about the addressing issues at Channon Street. In September 2017, Landgate recommended to the Shire of Williams that Channon Street be un-named and that affected properties be re-addressed to Richmond Street. Landgate has received no further correspondence on this matter.

Landgate continues to support, in principle, the un-naming of Channon Street and the re-addressing of affected properties to Richmond Street. Landgate will process a formal request from the Shire of Williams to amend the road name and subsequent addresses once received. The owner is encouraged to contact the Shire of Williams to progress the matter.

For further information on the naming and addressing process, please contact Michelle Ellefsen, A/Director Geospatial Landgate on (08) 9273 7122 or email michelle.ellefsen@landgate.wa.gov.au.

Yours sincerely

HON JOHN CAREY MLA
MINISTER FOR PLANNING AND LANDS
