**To All Williams Councillors**

**Re- Olive St**

**I am having the same issues with my address as Michael Italiano, with people trying to find 20 Olive St Williams. I am continually trying to explain my address, when there is no Olive St. Emergency Services and Utility services can't understand that there is no road or signage for this street.**

**I am asking would it be possible for you to contact the Geographic Names Committee in Landgate for consent to remove 20 Olive St Williams and make it an unmade road, or permanently closed, and only have one address as Richmond St Williams for me, this would make it more visible and easier for people and services to find me without all the hassle.**

**Could you please contact me so I can stay informed about any progress.**

**Regards**

**Peter Logie
